Anotidaishe (Richard) Mazhindu

Web Developer | Shopify & Web Application Development

Pretoria, South Africa | +27 69 474 5469 | LyrixcsMiles@gmail.com

linkedin.com/in/lyrixcsmiles-dev | github.com/Lyrixcs-Miles | portfolio.azhyre.co.za

PROFILE

Web developer with one year of practical experience building Shopify stores and standalone websites across client work and independent projects. Experienced in storefront design, store setup, product configuration, and website maintenance. Also design ads and email campaigns, and build web applications with React, Node.js, and Supabase. Available for web development roles, contracts, and freelance projects.

TECHNICAL SKILLS

Development: HTML, CSS, JavaScript, React, Node.js, Python, Supabase (PostgreSQL)
E-commerce & web: Shopify setup, storefront customisation, product listings, website maintenance, WordPress, Webflow
Design & marketing: Ad design, email design, Figma, Canva, Photoshop

PROFESSIONAL EXPERIENCE

Web Developer | Self-employed, trading as AZHYRE | 2025–2026

- **Own-brand Shopify stores:** Designed and configured; currently maintain Azhyre Apparel and Azhyre Tech. Work covers storefront layouts, store settings, and product setup.

Freelance Web Developer | Client projects | 2025–2026

- **SerenQ:** sereng.co.za. Designed and configured the Shopify storefront, including layout, store settings, and products. Provide ongoing storefront maintenance.
- **Paws & Play:** paws.azhyre.co.za. Designed and set up the Shopify storefront and support ongoing maintenance.
- **Bella's Delight:** Developing the Shopify storefront. Not yet open for orders.
- **Standalone websites:** Designed and built six websites for clients, available on request.

TECHNICAL PROJECTS

CurShip | Shopify delivery app | 2025 – 2026

- **Shopify integration:** Real Shopify orders, fulfilment, labels, and cancel with refund, tested in a development store.
- **Status:** Courier booking tested in The Courier Guy's sandbox. Wallet in test mode; no live payments taken. Not yet launched to merchants.
- **Built with:** React Router, Node.js, Supabase (PostgreSQL), The Courier Guy API.
- **Demo (sample data):** curship.vercel.app

Forge | Python command-line tool | 2025 – 2026

Creates and lists projects, and checks developer tools. Early stage.
